POORTGEBOUW ROTTERDAM

Since 1980, the members of the Poortgebouw living group have been working together to organize and host a long list of activities. Things that otherwise did not have a place in Rotterdam. Our diverse social, cultural and political activities are powered by a Do-It-Yourself attitude: they are motivated by necessity and passion — not “target-groups” or the market – and were possible without structural funding. Through the personal involvement of and the interaction between the different individual inhabitants – coupled with the creative networks of “Friends of the Poortgebouw” – the Poortgebouw has functioned for over 25 years as a breeding ground in the Rotterdam cultural climate. The contents of this “Poortfolio” illustrate the Vereniging Poortgebouw’s position as a unique role-player in this contemporary “creativity city” and in the developing cultural climate on the Kop van Zuid.

*M*usic & Performance

The Poortgebouw is reknown as a “hotspot” for emerging musicians and bands: A place to experiment and try out ideas with a small public. The musicians, music students and simply those living in the house with an interest in music have either performed themselves or invited friends from their networks to perform in the public spaces of the house. A complete list of the local Rotterdam to international artists who have taken stage in the PG is impossible!

Discussions & Forums

The Poortgebouw has hosted and initiated various forms of public discussion and debates. A broad range of participants have been invited to address themes exploring alternatives to prescribed socio-cultural and political norms and values. With the changing of times, issues and – especially in our case – the built environment, so must our strategies be adapted to propose new critical positions and contemporary forms of engagement in the city. Often in collaboration with external organisations and individuals, our aim is to encourage critical thought and offer a platform for exchange of knowledge between individuals.

Eetcafés

As pioneering inhabitants of the Kop van Zuid, the 1980 squatters decreed that the abandoned Poortgebouw would not only become a living space for youth and the marginalized but also a lively meeting space. From these early days until today, the eetcafé has fulfilled the function of a weekly café where the Vereniging and their friends can meet and eat together. For many years the Poortgebouw eetcafé was the only place in Rotterdam where vegans could cook together in a large group. The current twice weekly vegetarian eetcafé has through the years had many names, variations and alternative manifestations such as:

Teehuis, Kraakcafé, Braaksmaak, Staatloos Café, Italian Eetcafé, Infocafé, Nachtcafé Ontij...

The Poortgebouw is a historical harbour monument of great interest and importance – not only to us as a home – but also to the citizens of Rotterdam and visitors from abroad. We often organize Open Days which always include guided tours of the house, music and food, if not more. These open days have at times taken place in collaboration with other events in Rotterdam and, more often, been independently organized by the Vereniging as a way of welcoming our neighbours and letting people see for themselves who we really are. Send a mail to info@poortgebouw.nl to book a tour!

Open Podium

POORTGEBOUW IS OPEN

The Poortgebouw organizes open podiums for individuals who have an idea to test it in the company of others. Unpredictable evenings of music, theater, film, poetry, food and more are here the norm! Ideally, some coincidental overlaps emerge and morph into something new. The dynamic of each open podium evening, created by the blurred border between audience and participants, is unique and unrepeatable.

Practice Space

POORTGEBOUW IS OPEN

There is a desperate shortage of practice space in Rotterdam for up-and-coming bands and talent. These people need to make noise! The Poortgebouw, as a free-standing building, has offered through the years this missing practice space without disturbing our neighbours.

POORTGEBOUW TEACHES !

In the Poort lives an everchanging mix of multi-talents. Many of these individuals use their private as well as the larger public spaces such as the attic for giving lessons to people inside and outside the house. A sample of these lessons include:

Yoga Lessons, Boxing for Single Fathers, Modern Dance, Saxophone, Cooking, Photography (PG has it's own development room, Language Courses: Dutch, Spanish, English, French, Computer Courses (graphics, web design, programming etc.), Hair-Cutting...

POORTGEBOUW ACCOMODATES

*S*tudents

The Poortgebouw is also an important place for affordable student housing, especially for students from art, music and cultural programs. Many current and past Vereniging members live in the Poortgebouw for the duration of their studies (and often longer!) where a lively combination of housing, practice space and activities can be found. The Poortgebouw offers students a place to try out new ideas, meet other artists and like-minded and make interdisciplinary collaborations. Some educational institutions whose students have lived here:

CodArts: Rotterdams Conservatorium
Willem de Kooning Kunst Academy Rotterdam
Piet Zwart Post Graduate Institute Rotterdam
Erasmus Universiteit Rotterdam
Hoogschool Rotterdam
Technical University Delft
Koninklijke Academy Beeldende Kunst Den Haag
St. Joost Breda
Design Academy Breda
Universiteit Leiden
Artez Arnhem
St. Lukas Brussel

POORTGEBOUW ACCOMODATES

*G*uests

The Poortgebouw has a guest room and a number of other rooms that can provide temporary living space for artists and musicians visiting or performing in Rotterdam. The PG participates in a broad Rotterdam network and is contacted regularly for artist accomodation by:

Baroeg, WORM, Waterfront, V2_ Institute for Unstable Media, Rotterdam Festivals, Tocado Records, Stardumb Records, LadyFest Rotterdam, Motel Mozaic...

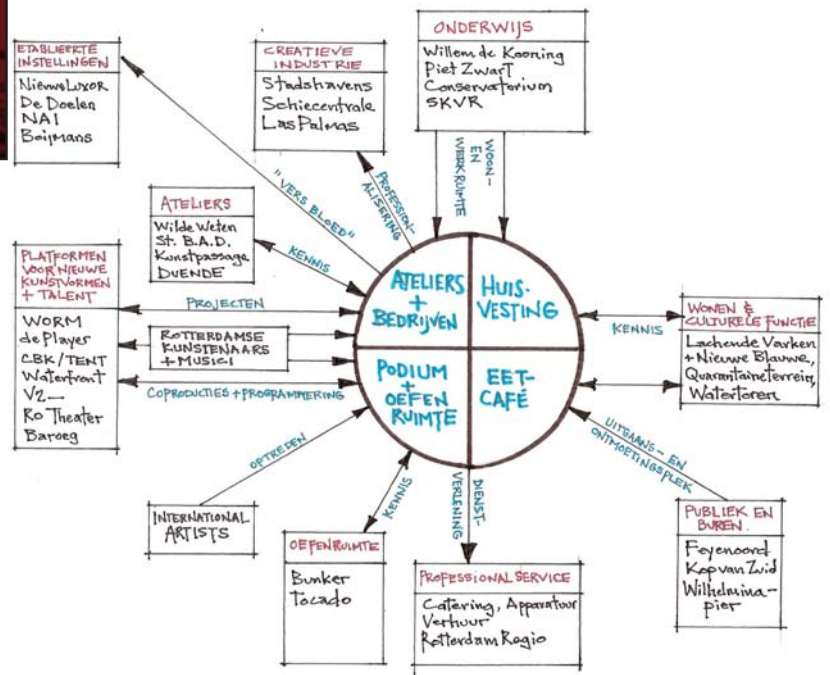

POORTGEBOUW COLLABORATES

Some of our partners include: Bewonersvereniging Landtong Koninginnedag Rommelmarkt with Music Festival, V2_ Dutch Electronic Art Festival 04, SKVR, R:IP Rotterdamse Improvisatie Poel, Tocado Records, Stardumb Records, WORM, KSU, Wim vd Herik, Black Lodge, European News Real, Extrapool, Cineac TV, Witte de With Center for Contemporary Art, X-TREEM, Tussen-Ruimte Architecten, Bond Behoud Sociale Huisvesting, Galerie De Aanschouw, De KUNSTSUPER, Academie van Bouwkunst, and more...

The Vereniging has collaborated and with a longlist of other institutions, organisations and individuals to realize public events. These have either been hosted in the PG or elsewhere in Rotterdam.

POORTGEBOUW

Support

Although most Poortgebouw activities were self-organized and based on a masochist principle of self-exploitation, some activities did receive the financial support from cultural funding institutions.
